**SOUR CHERRIES**

**VARIETIES** — Brassington, Early Richmond. Large Montmorency and English Morello.

**BRASSINGTON**—A sub acid variety, between a sweet and a sour. We consider it the very best variety for home use or roadside stand. People who buy it once always come back for more. **EVERGREENS**

Specimen Trees, with roots Balled and Burlapped.

We cannot pack evergreens with roots balled and burlapped with earth for shipment by freight or express. It is too risky, heavy and expensive.

If desired we can ship them with bare roots packed in damp material successfully.
